

Fortelock | Industry Ultra

NEW

Tiles for heavy-duty industrial loads

- Intended for areas with high point loads or dynamic loads, especially **warehouses, industrial production facilities, logistics centers**
- Forklift trucks can be loaded up to a weight of **5,500 kg without the need for floor fixation** (at a temperature of 20°C)
- Quick and **easy assembly, maintenance and cleaning**
- It can be installed without interrupting operations
- Individual tiles can be easily replaced with new ones without the need to dismantle the entire floor
- Easily combine colors and create corridors, paths and guide lines
- High resistance to chemicals and abrasion
- Thermal and sound insulation
- ECO version made **from recycled material**

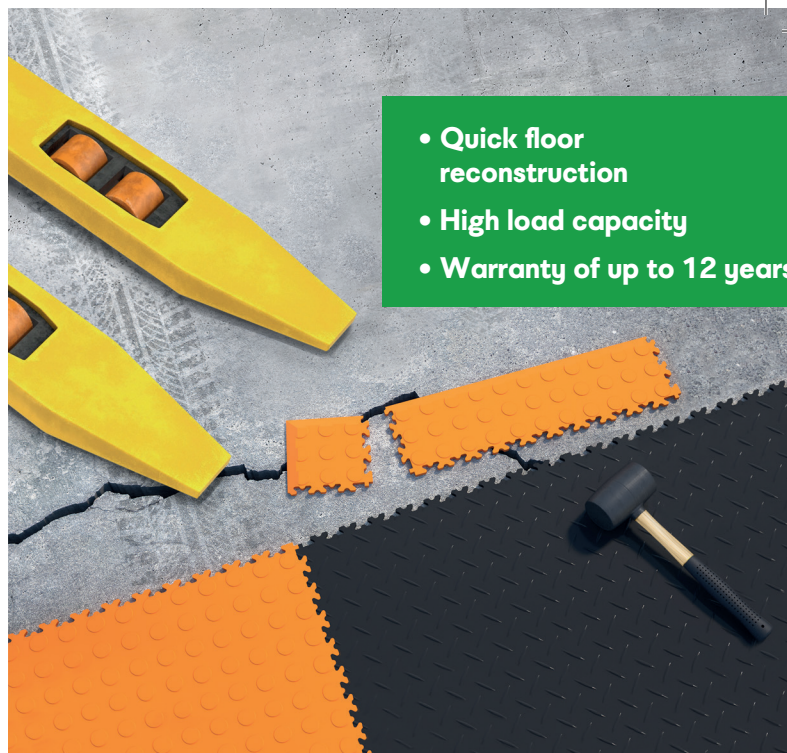

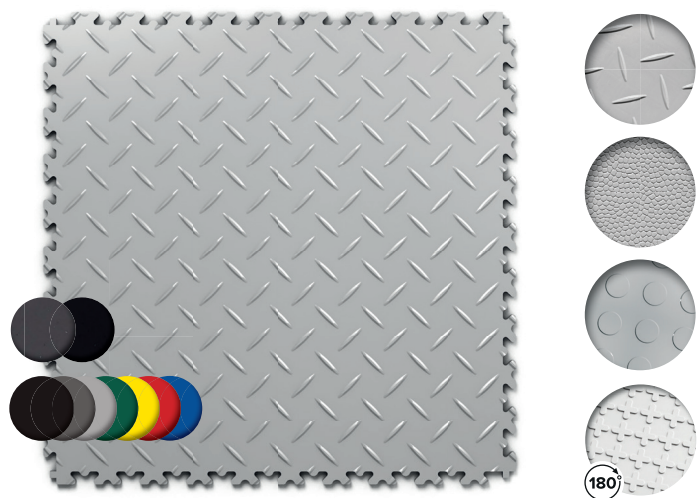

up to 5,500 kg
without the need to glue or anchor the floor

Fortelock Industry Ultra

- Quick floor reconstruction
- High load capacity
- Warranty of up to 12 years

	Dimensions	Thickness	Mass	Recommended maximum load weight including the weight of the truck without fixation at 20°C		
				Pallet truck	Retrak with hard wheels	Forklift truck with inflatable wheels
Industry	510.5 x 510.5 mm	7 mm	2.3 kg	< 800 kg	unsuitable	< 5,000 kg
Industry Ultra	510.5 x 510.5 mm	10 mm	3.1 kg	< 2,200 kg	< 3,500 kg	< 5,500 kg

Fortelock

XL ESD Industry ESD

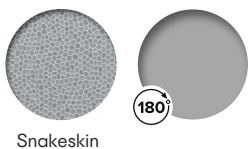

Electrostatically conductive tiles for the elimination of electrostatic discharges

- Intended for facilities that produce electrotechnical components, for the automotive industry, for areas with a risk of explosion, substations, data centers, laboratories, and medical facilities
- Meets the requirements of IEC 61340-5-1
- Warranty of up to 12 years
